

Dear Friend,

If you receive this email it mean you played a big part in our achievements over the past ten years.

Welcome to 2011!

From all at GCU we wish you a happy and prosperous New Year ...

Hot News

We are celebrating our 10th Anniversary this year amazing! The number one speaks of new beginnings and our theme for this year will be **“it’s only the beginning”**.

Why choose a theme like this you may ask? Well is time for a new atmosphere in Cape Town a new breed of role models it’s time to Stand up & Stand out. We done crawling and we taking our first steps, step by step is the way we want to do it. I’m so excited I know it will be challenging but we have come this far and by God’s will we will fulfill our vision. I really take heart in the following statement:

“You can’t change where started, but you can change the direction you are going. It’s not what you are going to do, but it’s what you are doing now that counts.” Napoleon Hill

So if you have a dream do not hold back go for it, I’m living mine...

It brings me to you I thank God for bringing you our way. We really could have not done it with out you for the past ten years. I will always say this by you believing in us means a lot and it keeps us going, thank you for caring!

Again to all of you my friends THANK YOU...

Mission Statement

“To see youths become positive contributors to society and economy.”

Our Approach for 2011

Crime is like electricity you don't see it build up but you feel it. Why do I say so? Well this is my personal opinion, we like to mention that is crucial for early intervention in a child's life because it makes a big difference in the child's physical, intellectual and emotional development. So it means that prevention is better than cure. The sad part is that not all children are privilege in getting the right development from the start and for me the most important is love.

Early I mention about changing the atmosphere and it is really what needs to happen in our communities. Unfortunately we can not change people if they don't want to change but we can create a positive atmosphere. Gangsterism has been dominating our communities for along time. It is going to take tremendous hard work to redirect that cycle of crime but it is possible. Please don't misunderstand me I'm not saying we going to be crime free but we will see a decrease in children from joining gangs. Touch one and they change there generation.

We need to change the atmosphere in the community because we break it down due to the lack of quality education. We forever cry of not getting opportunities, or blame the past but I believe is time to get over it. Reality is opportunities do come hard in our communities, but again we can change it. It all comes down to education; education plays a vital role of redirecting the cycle of crime and not just education, quality education!

So our approach is very simple but yet it can be very effective, we going to challenge the children to stand above their circumstances and reach for their dream.

We need your help

If what I just mention above make sense, please contact me if you would like to partner with us.

Kind Regards & Thank You

Mario
